

One thing that Intivix has done since we started ten years ago: we really didn't have a network in place. We didn't have any experience in computers, so we were looking for a consultant who could move us forward. And that is what Intivix has brought to us.

The transition was seamless.

Intivix has brought our company further, one step at a time. I haven't had to worry about it. I know I can call Intivix and [they'll] help us.

Intivix has always been there to help us and make sure we have strategic assistance. Intivix has [consistently] been up-to-date and never behind.

We're looking forward to the future, going into the Cloud, and getting our servers out in the Cloud so we don't have on-site [servers] anymore. We'd like to implement tablet technology and keep on going with the technology that is out there.

**– Robin Paniagua, Director of Operations, Italfoods, Inc.**
